

*A Place For Everything, **Everything In Its Place...***

Effective tool control is a continuous improvement practice that holds major benefits for every industry and individual that adopts it. From Aviation to Lean Manufacturing, From Medical to Military... Take effective control of **your tools** and improve **your system**.

STEP 1 - Image

Take a picture of your tools on one of OSAAP Australia's Light Stations.

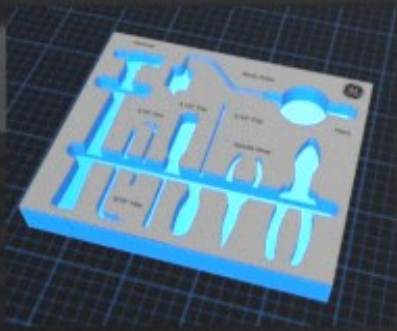

STEP 2 - Design

Use our BlueShadow software to create a custom layout or let our experienced design team do it for free!

STEP 3 - Upload

Upload your design to the Web-Portal.

STEP 4 - Approve

We will send your design for final review and make any changes that you need.

STEP 5 - Produce

When you are 100% satisfied with the design, we will produce your foam shadow board and ship it right to your doorstep!
